01 PROFILE

Resourceful Junior Web Developer and data entry professional with hands-on experience building responsive, user-focused web applications using HTML, CSS, JavaScript, and React. Adept at improving page performance, streamlining data-entry workflows, and delivering accurate digital solutions with 99.9% data accuracy. Brings a strong foundation in front-end development, UI/UX awareness, and problem-solving, along with experience collaborating across teams and using Git, Jira, GitHub Pages, and Netlify to support efficient project delivery. Quick learner with a proactive mindset and a track record of turning technical requirements into polished, reliable results.
